

## FRENCH'S HYBRIDS SOYBEAN FACT GUIDE

All French's Hybrids soybean varieties are selected for the challenging growing conditions we always face in the North Coast region.

### **FRENCH'S HYBRIDS VARIETIES ARE:**

1. Produced under field and laboratory inspection guidelines.
2. Highly tolerant of Phytophthora Root Rot (PRR) using various gene selections.
3. Full Growth habit and suited to all row widths.
4. Proven for use in no-till systems.
5. Indeterminate in hypocotyl length (not sensitive to planting depth).
6. Treated seed.
7. Inoculated with N-Force and N-Hibit® Biological.

All French's soybean varieties will have the number of seeds per pound listed on the seed tag and our seed is sold in 130,000 Seed Units. Please consult with French's Hybrids for assistance in determining plant populations and be sure to set your planting unit accordingly.

All varieties are available in bags, mini-bulk bags, Pro Boxes and True Bulk.

Early ordering will help assure your favored varieties are available in your preferred package options.

Soybean trait packages are rapidly changing.
